

TRANSPORTATION PLANNER POSITION OPPORTUNITIES

Hillsborough County BoCC Tampa, Florida

The Hillsborough County Development Services Department's Transportation Review Section is seeking two Professional Urban Planners to expand our team. In taking one of these two new positions, you will not generally be involved in community wide plans, studies or code amendments (which are handled by another department); however, you have the opportunity to shape plans and proposals to result in better development outcomes at the implementation stage of the development process.

ABOUT THE ENVIRONMENT: Hillsborough County is a fast-growing County with over 1.4 million residents. The office is located in downtown Tampa, with easy access to many communities within the Tampa Bay Area. Currently, new employees would work in the office during their probationary period, after which there is an opportunity to work remotely part of the week (policies are subject to change and dependent upon business needs).

ABOUT THE WORK: Our small group of 5 people are responsible for reviewing zoning, special use and site construction/subdivisions applications for consistency with applicable plans, codes and standards. This position would currently be focused on mostly zoning related applications. While we see many different types and sizes of projects, work is cyclical in nature with recurring deadlines for various meetings and hearings which typically occur on a monthly basis.

THE IDEAL APPLICANT: Individuals with an eye for detail, willingness to learn and grow, and ability to clearly and calmly communicate with applicants and members of the public are likely to succeed in this role.

WHY IT MATTERS: While much of the work and deadlines will become familiar, our ability to ensure that projects are fairly, accurately and consistently reviewed and implemented are critical to ensuring that the goals and objectives of countywide and local area community plans are achieved.

We look forward to receiving your application!
