Equity in Transportation - How Complete Streets, TSM&O, and Multimodal Operations Work Together

Sawgrass Marriott - Ponte Vedra, FL

This street isn't complete without you: First Coast Beaches Community Open Street and Walkshop Challenge

The First Coast is anchored by beach communities: Ponte Vedra, Jacksonville Beach, Neptune Beach, and Atlantic Beach. The development patterns along the coast reflect permanent, seasonal and visiting lifestyles catering to sunshine, sand and sea. Moving residents and visitors takes more than vehicles!

The beach communities can be described as a huge cycling community – both for residents on road cycles and Sunday fun-day cruising as well as tourist rentals. Join us on this mobile tour to learn about the open street design in Jacksonville Beach and the North Florida TPO bike and pedestrian safety campaign for Atlantic Beach.

The tour will challenge participants in a **Walkshop** – an interactive pedestrian activity to highlight street elements that are present or absent, as the case may be, along the way to our final destination at a **local brewery**.
