

August 15, 2022

Dear ITE Member,

On behalf of the Florida Puerto Rico District of the Institute of Transportation Engineers (FLPRITE), we would like to take this opportunity to thank you for your support over the past few years with your company participation in our events. We value all contributions and memberships, which make up the lifeblood of our organization. Your involvement is extremely important to us and very much appreciated.

This year's meeting is particularly special as it will be held in Florida's most historic city, St. Augustine, on October 16-18, with our international board meeting that weekend for the first time ever in Florida! (additional meeting info attached).

This annual meeting is separate from other chapter, section, & district sponsorships. FLPRITE (district ITE) includes 5 sections (Central Northeast, Florida Panhandle, Greater Tampa, Puerto Rico, & South Florida) as well as 2 chapters which operate within our section boundaries (First Coast & Gold Coast).

The meeting sponsor is important to our work in making these events affordable and fun for all members, while allowing networking between long-time and new contacts. The event this year has some exciting opportunity to engage the new crop of transportation professionals. We are also holding a special event to allow firms to help grow our student community. It will be a lot of fun!

The sponsorship prospectus is attached to this packet. If there are any questions, please reach out Kris Milster, at secretary@flprite.org It couldn't be easier - just click [here](#) to participate!

Warm regards from the FLPRITE Board,

Catalina Echeverri
