Engineering
- Graduated from the
University of South
Alabama
- Resides in Bay County, FL

“

**AS
TRANSPORTATION
PROFESSIONALS,
WE HAVE AN
IMPACT ON THE
DAILY LIVES OF
MOST PEOPLE.**

”

PROFILE

It is an honor to be considered for the position of Florida ITE Treasurer. Participation within professional organizations not only furthers an individual's career but also gives back to the field as a whole. I have been a member of ITE for 26 years. I helped establish the Emerald Coast Chapter and was privileged to serve as its president for seven years. I also served as an editor for the Florida Green Book for the past 10 years and as president of the American Public Works Association (APWA) Emerald Coast Branch for the past seven years.

HISTORY

I began my career in transportation with the City of Mobile, AL Traffic Engineering Division as a co-op student. After graduation from the University of South Alabama, I moved to Florida and have worked for Bay County for the past 25 years. Throughout my career, I have seen firsthand the benefits of my ITE membership: Fostering friendships, gaining mentors, learning about technology updates, and simply being able to reach out with difficult questions are all benefits of ITE membership.

VISION

As transportation professionals, we have an impact on the daily lives of most people. From signal timing to sidewalks, we impact people of all ages. Transportation shapes economies and communities, promotes safety and livability, and provides an overall better world in which we live.

If elected to the position of Treasurer, I pledge to work to assist the Board in any way possible. I truly support ITE's mission to provide the global community of transportation professionals with the knowledge, practices, skills and connections necessary to serve the needs of their communities and help shape the future of the profession and transportation in the societal context.
